

INTENTIONAL MINISTRIES

Menu of Services Offered

Please denote the services you desire us to complete. Additional services can be added at any time. This information is used to budget our time together, as well as to allow us to deliver a product that is exactly what you need and desire. Please initial each option you would like us to complete.

_____ **Ministry Check Up** – From one day spent together to ongoing, goal-based consulting, we work with church leadership to evaluate ministry status quo and develop goals and strategies for the future.

_____ **Custom Multi-year Plan** – A core part of our approach, a multi-year plan provides a clear journey from entrance into student ministry through high school graduation and into the first year of college. Each plan is tailored to the mission, core values, theology, denomination, and size of your church.

_____ **Curriculum Outline** – Upon completion of a multi-year plan, we further assist churches by vetting and/or writing curriculum for each part of the journey. This option is listed separately as we also can review curriculum choices in future years without creating a new plan from scratch.

_____ **Forms Packet** – We live in a litigious world and student ministries are far too often unprepared for the unexpected and unforeseen. Our forms packet includes the following documents: Medical Information, Medical Release, Photo/Video Permission, Code of Conduct, Trip Registration (generic), and Discipline Acceptance. We can create these forms for you or review existing forms currently being utilized.

_____ **Child/Youth Safety** – Church insurance policies often require some form of process and training to vet those working with children, students, and those with special needs. We can work as your agent with church legal counsel and the insurance company to create a plan that meets all of these needs.

_____ **Staff/Volunteer Training** – A great plan only works if it is executed properly. Our training services focus on equipping staff and volunteers to not only make the overall ministry a success, but also how to get the most personal joy and fulfillment from serving.

_____ **Workshops** – We offer a variety of individual workshops for parents, volunteers, and staff. We cover topics from Understanding Your Teen to The Future of the Church. For a complete listing of our workshops, please inquire directly (as workshops are updated regularly).

_____ **Mission/Core Values Development** – Assuming others are on the same page with leadership often leads to frustration and sometimes even conflict. Clearly expressed mission and core values can help alleviate uncertainty. These items also help empower volunteers when implemented into a working metric for decision making. We provide both the common language and metric needed to get your team on the same page.

_____ **Social Media Tutorial** – Facebook, Twitter, Instagram, and texting are just a few of the social media tools that can help connect your students and parents to your ministry. We not only show you how to maximize the impact of each, but also show you how utilizing them can actually make your life easier!

_____ **Website Direction** – Whether you have a stand-alone site for your student ministry or a dedicated portion of the overall church site, we can help you maximize the impact of your site. We provide content recommendations, upkeep suggestions, and tips on getting the most hits.

_____ **Communications Audit** – Keeping students, volunteers, and parents informed of the events, needs, and successes of your ministry can be a daunting task. We evaluate how your current communication process is working and how it can be improved.

_____ **Program Development** – Not all churches have experienced program staff to create meaningful events and trips for students. We can help tailor a plan for such events to insure the event is not only fun, but also effective in the spiritual formation of your students, while training your team how to more effectively program themselves.

_____ **Certification** – When our plans are implemented, we provide your church with a certificate showing that you are an “Intentional Ministry”. Our certification is good for three years. At that point, we can review your plan, offer suggested changes or enhancements, and re-certify your ministry.

_____ **Facility Evaluations** – Looking to add or upgrade your facilities? We utilize our experience to assist you in the process. Too often such plans are too short-sighted and create facilities that are great at first, but inherently inflexible for future growth or program changes.

_____ **Branding Services** – Students love a sense of unique identity. Whether it is ministry branding or logo development that you need, we can be of assistance. We work with proven vendors to create something both you and your students can be proud to claim.

_____ **Staffing Assistance** – If your church is adding or changing staff, we can assist you in finding the person you need. We can take the headache out of the process and insure your time is best utilized.

_____ **Mentor Training** – Want to establish a mentor program but have no idea where to start? We will teach you and your potential mentors proven methods developed in multiple ministries over the past two decades.

_____ **Connect Students to College Ministries** – Our true heartbeat. We provide general training to parents and students to assist in locating the perfect college connection as well as providing individual, student-specific assistance.

Have a need you don't see listed here, please contact us anyway. If we can help you or if we know who can, we want to see your ministry flourish and your students become life-long, passionate pursuers of Christ.
